What happens after I pass each Challenge Phase of the Stellar Lite Challenge?

Updated over 2 weeks ago

Once a trader successfully reaches the profit target after trading for at least 5 days in Phase 1 of the Stellar Lite Challenge, a button labeled "Next Phase>>" will appear on their account Dashboard. By clicking on this button, the trader will immediately gain access to a Phase 2 account.

Alternatively, if a trader does not click the Next Phase button, the Phase 2 account will automatically appear on their Dashboard the following day.

Please refer to the image below for details on advancing to the next phase:

After successfully completing Phase 2 of the Stellar Lite Challenge, the system will perform an automatic profit check at the end of that particular trading day. If the trader has complied with all the rules and has achieved the profit target, a pop-up message will appear on the trader's Dashboard. This message will grant the trader access to the verification center, where they can proceed with the KYC verification process.

Once the trader has completed the verification, it will take approximately 24-48 hours for FundedNext to provide them with their FundedNext Account.

For more information regarding the required KYC documents, kindly click [here](#).
