When will the countdown for the 24-hour payout period begin?

Updated over 2 weeks ago

FundedNext's 24-hour Payout period begins when a trader submits a Payout request. Here's how it works:

Upon submission of a Payout request, the 24-hour countdown begins. **Traders should note that if the Trading Cycle ends without any Payout requests, automatic Payouts won't proceed.** The countdown starts only when a trader initiates a Payout request.

For example, if a trader requests a Payout on January 24th at 7:24 (GMT+2), FundedNext ensures the Payout by January 25th at 7:23 (GMT+2) to meet the 24-hour promise. Within this timeframe, FundedNext processes the Payout, ensuring the Profit Share is sent to the trader's designated method.

Traders will receive a confirmation email from FundedNext with a screenshot as proof once the Payout is completed. **However, the actual arrival of the Profit Share depends on the processing times of the chosen Payout method.**

This 24-hour period reflects FundedNext's commitment to swift Payouts, respecting traders' time and efforts in achieving their goals.
