What is the timeframe for FundedNext to process payouts?

# What is the timeframe for FundedNext to process payouts?

Updated this week

FundedNext commits to processing Payouts within a 24-hour timeframe. Here's what it entails:

**Start of Timeframe:** The 24-hour period begins when a trader initiates a Payout request.

**During the Timeframe:** FundedNext's operations team works within these 24 hours to process the Payout, completing all internal checks and preparations for the transfer.

**End of Timeframe:** The timeframe ends once FundedNext initiates the Payout transfer and completes it. Traders receive a confirmation email with a Payout screenshot as proof.

**In Case of Delays:** If the 24-hour timeframe isn't met and a delay occurs, traders receive a \$1,000 compensation added to their Payout.

FundedNext's swift Payout processing underscores their commitment to exceptional service and supporting traders' financial success.

*It is important to note that delays in processing Payouts may occur if traders provide incorrect payout methods or addresses. In such cases, FundedNext will contact clients within 24 hours to resolve the issue. However, FundedNext will not assume responsibility if the Payout exceeds the 24-hour timeframe due to incorrect information provided by the trader.*
