How Does the Scale-Up plan work in the Express Account Model?

How Does the Scale-Up plan work in the Express Account Model?

Updated over 2 weeks ago

FundedNext offers a Profit Share amounting to 60% in the first Payout, 75% in the second Payout, and 90% in the third Payout during the FundedNext phase in the Express Accounts. Additionally, the Scale-Up functionality in FundedNext offers traders a 40% increase in the account balance, up to a maximum of 4 million, along with a Profit Share of 90%.

Since traders in the Express Model already receive a 90% Profit Share from the third Payout, they are eligible for the increase in account balance through the Scale-Up functionality, but their Profit Share percentage remains unchanged at 90%.
