What do you mean by no time limit?

Updated over 2 weeks ago

FundedNext's Stellar and Express Models offer traders the freedom to pursue their profit targets in the Challenge Phase without any time constraints. This flexibility allows traders to use their strategies effectively and pass the Challenge at their own pace.

However, the Evaluation Model is subject to a time limit in the Challenge phase. For further details regarding the time constraints associated with the Evaluation account Model, please refer to the link [here](#).
