What is the Daily Loss Limit and the Overall Loss Limit in the Trade Master Cup?

Updated this week

Here's a detailed breakdown of the daily and maximum Loss limits for the Trade Master Cup:

Daily Loss Limit:

The Daily Loss Limit is **5% of your initial balance**.

For example, if your account balance is \$100,000, the maximum you can lose in a single day is \$5,000.

If you hit this limit, the account will be breached, and you will need to reset your account to continue trading.

Overall Loss Limit:

The Overall Loss Limit is **10% of the initial balance**.

For example, if your account balance is \$100,000, the total allowable loss throughout the Trade Master Cup Competition is \$10,000.

If your balance reaches this loss limit, your account will be breached, and you will need to reset your account to continue trading.
