What is the Trading Cycle count in my Stellar 2-Step FundedNext Account?

What is the Trading Cycle count in my Stellar 2-Step FundedNext Account?

Updated over 2 weeks ago

The trader's first Trading Cycle lasts for 28 days, and they receive their first Payout after this period. Following that, each Trading Cycle is two weeks (14 days) long with a Payout afterward.

For example, if the trader's cycle begins on August 1st, it ends on August 30th. Then, the next 14-day Trading Cycle starts on September 1st and ends on September 14th.

It's important to understand that the trader's Trading Cycle is 14 days only if they've made a profit and can request a Withdrawal in the previous cycle. This option becomes available after receiving the first Payout In the account.
