Is there a Minimum Trading Day and Profit Target in the FundedNext phase of Stellar 2-Step Model?

Updated over 2 weeks ago

FundedNext doesn't impose any rules regarding Minimum Trading Day and Profit Target in the FundedNext phase of the Stellar 2-Step Model. Traders are required to uphold a minimum of 5 trading days in each Challenge Phase, even if they achieve the Profit Target earlier.

For instance, if a trader attains the profit target in Phase 1 of a \$50,000 Stellar 2-Step Account within 3 days, they must trade for an additional 2 days to fulfill the Challenge Phase requirements. To fulfill these days, the trader can initiate a trade of 0.01 lot. Following the server Reset time on the 5th day, the trader will receive a notification to progress to the next phase.

If a trader successfully reaches the 8% profit target in Phase 1 within 5 days, adhering to all rules, they become eligible for a Phase 2 account.

Similarly, if a trader accomplishes the 5% profit target in Phase 2 within 5 days while complying with all rules, they qualify for a FundedNext Account.
