# FundedNext New Platform: cTrader

Updated over 2 weeks ago

At FundedNext, we understand the importance of equipping our traders with the best tools. cTrader stands out as a powerful platform, offering a unique blend of features that cater to various trading styles.

## Intuitive Interface and Streamlined Workflow:

**cTrader** prioritizes user-friendliness. From account setup to trade execution and analysis, the platform boasts a clean and intuitive interface, ensuring a smooth trading experience for beginners and veterans alike.

## Focus on Transparency:

**cTrader** provides exceptional transparency into market depth with Level II pricing. This allows traders to see the available buy and sell orders at each price level, empowering them to make informed decisions based on real-time liquidity.

## Advanced Order Types for Flexibility:

**cTrader** offers a comprehensive suite of order types, including take profit, stop loss, and trailing stops, built directly into the platform.

## Cross-Device Accessibility:

**cTrader** functions seamlessly on desktops, web browsers, and mobile devices. This cloud-based accessibility grants traders the freedom to monitor positions and execute trades from

anywhere with an internet connection, surpassing the limitations of platform-specific software installations.

### Built for Manual Trading:

**cTrader's** intuitive design and advanced charting tools are ideally suited for manual traders who value a clear and uncluttered workspace. The platform excels in facilitating technical analysis and strategy execution.

### MetaTrader vs. cTrader: Choosing the Right Tool

The choice between **cTrader** and **MetaTrader** boils down to individual trading styles. While **MetaTrader** offers a wider range of EAs, **cTrader's** built-in features and focus on transparency make it a compelling option for manual traders seeking a streamlined and user-friendly experience.

### cTrader's Free 'News' Feature

**cTrader's** News feature is unique for its seamless integration within the platform, providing traders with real-time updates on market events and news releases. What sets it apart is its accessibility; unlike other platforms that may charge for similar services, cTrader offers the News feature completely free of charge. This inclusion enhances the trading experience by ensuring traders have access to timely and relevant information without incurring additional costs. Furthermore, the feature's customization options allow users to tailor their news feed to their specific trading interests, enhancing its utility and value.

FundedNext encourages our traders to explore both platforms and choose the one that best aligns with their trading approach. FundedNext offers support and resources to help you navigate this decision and maximize your potential within the chosen platform.

**Note:** Please be aware that the accounts with balances of \$100,000 and \$200,000 cannot be purchased, modified, reset, or topped up on the cTrader platform.
