# Is there a profit target in the Trade Master Cup?

Updated this week

Unlike the FundedNext Challenges, the Trade Master Cup has no set profit target. Participants have the freedom to grow their account balance as much as possible throughout the competition. At the end of the event, the trader with the highest account balance will secure 1st place.

This unique approach allows traders to focus entirely on maximizing their performance without the pressure of hitting specific targets. The flexibility encourages participants to apply their strategies creatively and showcase their true trading potential, making the Trade Master Cup an exciting and rewarding competition for all.
