# How can I redeem Infinity Points?

Updated over 2 weeks ago

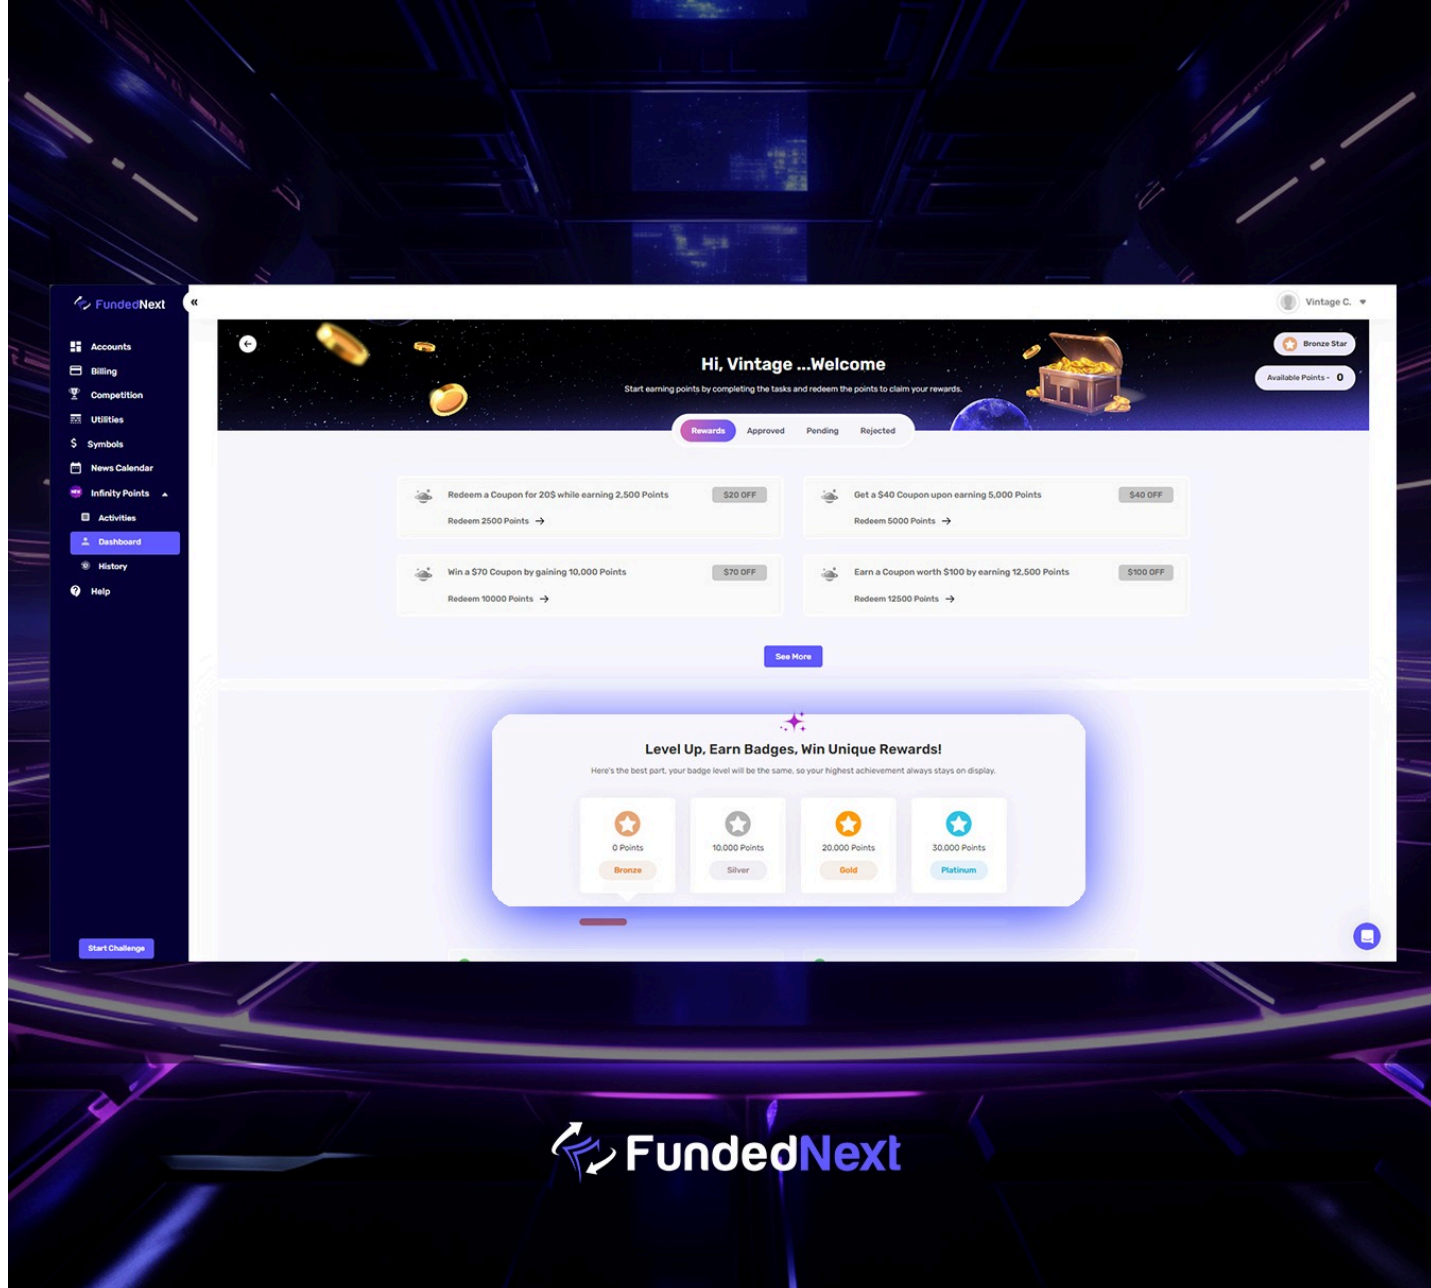

Redeeming Infinity Points on FundedNext is a straightforward process for traders. Here's how to do it:

**Accumulate Points:** Traders engage in platform activities and complete tasks to earn Infinity Points.

**Check Point Balance:** They should visit their user profile or the points section on the platform to see their current Infinity Points balance.

**Explore Rewards:** Traders can browse through the rewards catalog to find rewards that match their accumulated points.

**Select Reward:** Once a reward is chosen, they can initiate the redemption process by selecting it.

**Apply Discount:** During checkout, traders can apply their redeemed points to receive a discount on their purchase or transaction.

**Monitor Points:** It's important for traders to keep an eye on their points status to plan future redemptions effectively.

Traders should ensure they use their points before they expire to make the most of their rewards.
