When do I get the Reward Bonus in the Evaluation Model?

When do I get the Reward Bonus in the Evaluation Model?

Updated over 2 weeks ago

After successfully completing the Challenge Phase and receiving your FundedNext Account, you may request your Reward Bonus with your first withdrawal. The Reward Bonus must be requested as a payout and will be added to your total payout amount upon approval.

For example, if a trader purchases the **Evaluation 6K Challenge Account** for **\$49** and successfully completes the Challenge Phase, they can request the **\$49 Reward Bonus** with their first payout request, effectively reimbursing them for the challenge cost.

If the account undergoes a reset, however, the Reward Bonus will match the **reset fee** instead of the initial purchase price. For instance, if the reset fee is **\$44**, then the Reward Bonus provided upon request would be **\$44**.
