Why should I join FundedNext?

Updated over 2 weeks ago

FundedNext believes that choosing the right prop trading firm is essential for achieving success in a trader's trading endeavors. Here are eight compelling reasons for traders to consider joining FundedNext and experiencing its unique benefits:

- **15% Profit Share:** FundedNext proudly offers an outstanding 15% Profit Share on profits earned during the Challenge Phases, designed to reward our top traders while ensuring exceptional payout bonuses. Traders will enjoy a **15% Profit Share** upon achieving **5% growth** in both the **Stellar 2-Step** and **Evaluation FundedNext Accounts**.

With the **FundedNext Express Challenge**, traders can start earning from the very first month. In the Challenge Phase, traders will earn **15% of the profit** generated in each Trading Cycle.

For those in the **Stellar 1-Step FundedNext Account**, a **10% growth** is required to unlock the same generous profit share.

- **Reward Bonus:** Upon successfully completing the Challenge Phase and receiving your FundedNext Account, you become eligible for a **Reward Bonus** on your **first payout**. This bonus must be requested as part of your payout. For most accounts, the Reward Bonus can be requested with your **first payout**. However, for the **Stellar Lite Account**, the Reward Bonus will be available **after your third payout**, and must be requested at that time. The Reward Bonus is equivalent to the subscription fee.
- **No Time Limit:** Bid farewell to tight deadlines as FundedNext removes time constraints from most Challenges, allowing traders to operate at their own pace and unleash their full potential. For example, there is no time limit on all the available Account Models, except for Evaluation Model.

- **Brand Promise:** FundedNext's Brand Promise represents our unwavering commitment to our traders, embodying the core values and high standards we uphold in the proprietary trading industry. This promise includes guaranteed payouts, processing payout requests within 24 hours, and a \$1,000 compensation guarantee in the unlikely event of a delay (conditions apply). It's our way of ensuring that every trader knows their success is taken seriously and that they have a reliable partner in us. We prioritize clear communication and swift resolution of any issues, always keeping the trader's needs at the forefront. For more, [click here](#).
- **Pro Support Team:** Traders receive support from FundedNext's Pro Support Team, comprising experienced professionals dedicated to assisting with any issues or queries.
- **Various Trading Platforms:** FundedNext offers a wide range of trading platforms, including MetaTrader 4, MetaTrader 5, and cTrader, allowing traders to choose according to their convenience.
- **News Trading Allowed:** Traders are free to trade during news time at FundedNext. However, the risk of trading during news time should be kept in mind.
- **Lowest Commission:** FundedNext offers the best Commission rates in the market. FundedNext cares about the trader's profit and wants to make sure the trader's profit is maximized in the best possible way.

Why should I join FundedNext?

15% Profit Share
